SUMMARY

Seeking an internship in cybersecurity or secure web development where I can apply my knowledge of network security, wireless security, and risk assessment (ISO 27005). Experienced in applying practical skills in Flutter, PHP, MySQL, and secure web programming through academic projects, including the development of a mobile application. Eager to gain hands-on experience in securing applications, identifying vulnerabilities, and implementing robust protection strategies. Interested in bridging software development and cybersecurity through practical, research-driven projects.

EDUCATION

Universiti Sains Islam Malaysia (USIM)

October 2022 - Present

Bachelor of Computer Science (Information Security and Assurance)

- Current CGPA: 3.67

University Sains Islam Malaysia (USIM)

October 2021 - August 2022

Tamhidi of Accounting and Muamalat

- CGPA: 3.05, MUET: Band 3.5
